The 10 villas are designed to inspire a zen and modern ambiance with the purpose of giving their residents a feeling of endless vacation while comfortable at home. The architecture of the project plays the biggest part in setting the relaxing tone and mood: each residence is designed as a beach house with its own pool, terraces, landscaping, and two private covered parking spots. The white facades contribute even more to the mood, while the cladding that varies from natural stone to resin or wood gives it its homey and luxurious feel.
